

The whitest marble found to date

flawless
WHITE

The colour white has never been as dazzling as in our Flawless White. R K Marble brings you the world's purest white marble – a fine-grained exquisitely sensual gem. Come and experience its perfection.

FLAWLESS WHITE

I am the colour the Gods chose as their own. I am the colour of heaven. I am the alabaster dream civilizations have feted and celebrated. Purer than the stone used to build the Taj Mahal, I am the true whitest white. Evolved by transforming the purest limestone in nature, I am universally celebrated as the zenith of luxury and royal discernment, formerly reserved only for temples and grandest palaces. My 99.07% calcite makes me the world's purest marble. R K Marble turns me into the shape of your brightest, most dazzling dreams. After all, I come from the world's largest producer of white marble.

CAT'S EYE

Welcome to the changing world of the most glamorous colour play. Cat's Eye is flirtatious. The perfect blending of black and white, its startling appeal lies in its sensuous blending of black shadows on the purest white surface. Let your imagination run wild as you follow the trail of smoky black tickling through the pristine whiteness of nature's purest marble in a dance that has captured eternity in marble.

Ever-changing, there is no repetition in the flowing lines. This amazing stone is used in a whole host of applications that are limited only by your imagination.

Flawless White and Cat's Eye are quarried from exclusive R K Marble mines and transported, cut, processed and polished to match your every requirement for quality, brilliance, consistency and finish and come in international sizes.

LEADERSHIP IN EXCELLENCE

The whitest white marble is brought to you by R K Marble, the company dedicated to bringing the finest marble to the world. For over twenty years, the name has been synonymous with grandeur, finesse and quality. An ISO 9001: 2000 certified company, R K Marble has set benchmarks in the mining, processing and finishing of marble. An annual production of over 1.5 million tonnes (equivalent to over 60,000 sq. mt. daily) has earned the company its Guinness World Record as the world's largest producer of marble.

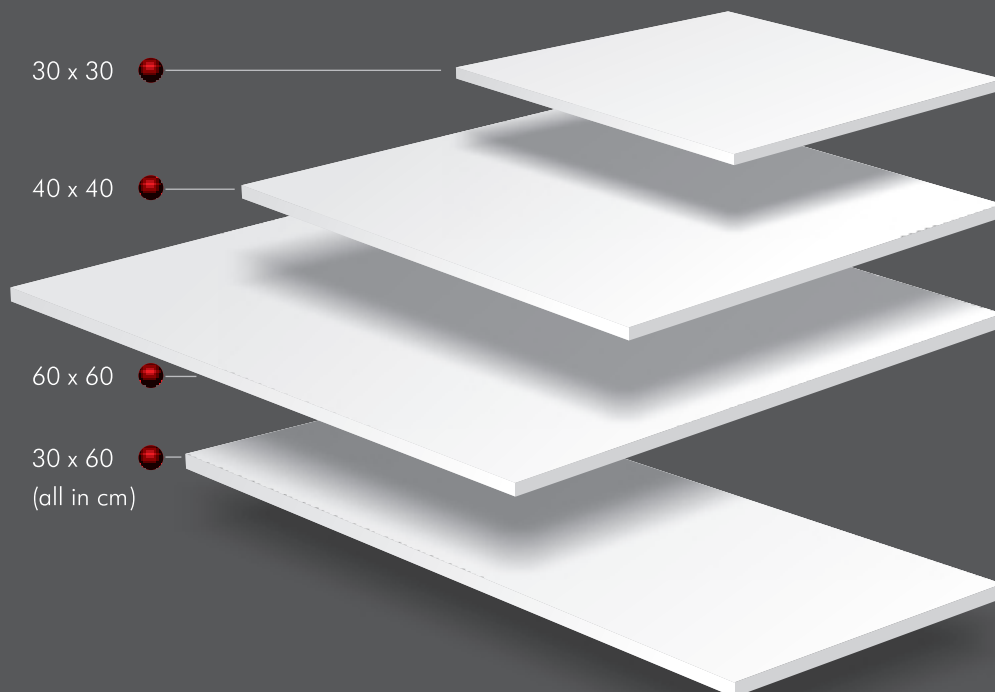

Properties that make Flawless White one of the most lustrous and purest marble

Test*	Test Values [^]
Chemical Analysis (Unit % by mass)	
Loss of Ignition (at 1000° ± 10° C)	43.7
Silica (as SiO ₂)	0.22
Alumina (as Al ₂ O ₃)	0.02
Iron Oxide (as Fe ₂ O ₃)	0.02
Lime (as CaO)	55.5
Magnesia (as MgO)	0.27
Titania (as TiO ₂)	Nil
Soda (as Na ₂ O)	Less than 0.01
Potash (as K ₂ O)	Less than 0.01
Calcium Carbonate (as CaCO ₃)	99.07
Physical Analysis	
Mohs Hardness	3
Water Absorption (% by wt)	Less than 0.1
Bulk Specific Gravity	2.71
Compressive Strength (kg/cm ²)	Dry - 559 Wet - 480

*Samples provided for testing may not be representative of the whole quarry.

[^]Testing as per European and/or ASTM standards.

Standard formats*

*In all international standard sizes and thickness
